7 December 1987

MEMORANDUM FOR: Chief, Management and Liaison Staff, OC

25X1 FROM:

Chief, Management and Plans Branch, OC-MLS

SUBJECT: Weekly Staff Notes, 29 November - 5 December 1987

1. General:

25X1

b. As of 4 December, plans officers from all four directorates and the office of the DCI have reported that the majority of their FY90-94 requirements for new communications services, for which OC and OIT will perform cost and feasibility analyses, will be forwarded during the week of 7 December. Cost figures for FY90-94 new initiatives must be available to the requesting components prior to mid-January 1988 in order to meet the Comptroller's schedule for budget submissions. The yearly program call for new communications services is initiated and coordinated by the Management and Plans Branch, OC-MLS.

25X1 b. [ ] of OIT visited Management and Plans  
25X1 Branch on 30 November and was interviewed as a potential  
25X1 replacement for [ ] who will be departing shortly  
for a rotational assignment with the DDI.

25X1 e. On 1 and 2 December, [ ]  
took part in National Communications System (NCS)  
Telecommunications Service Priority (TSP) Subcommittee  
meetings held at the MITRE Corporation's Hayes Complex in  
McLean, Virginia. These all-day sessions were devoted to  
working on a joint government response to the Federal  
Communications Commission (FCC) Notice of Proposed  
Rulemaking (NPRM), which, when it is published in the near  
future, will become an integral step in the process of  
establishing the TSP system. The Telecommunications Service  
Priority system is the suggested replacement program for the  
current Restoration Priority (RP) system currently in force

throughout the U.S. telecommunications infrastructure. Once the NPRM is published, both government and industry will have 45 days to comment on the FCC notice.

25X1 f. [ ] attended the weekly DOLPHIN  
25X1 Developement Team meeting at Headquarters on 1 Dec 1987.  
The schedule for the next five meetings in December (two a  
week) was made available to participants. [ ]  
proposed an approach called Joint Application Design to the  
lengthy, time consuming, and overwhelming process of  
collecting DOLPHIN requirements.
